Subject: PFAS Technical Assistance Data Reports (Reports #4 thru #7)

Mr. Kloo –

Please find attached four reports that provide data from analyses of PFAS in various media, specifically soil, sediment, vegetation, and treated well water. These reports are part of the technical assistance EPA's Office of Research and Development is providing to NJDEP as part of a collaborative effort that has been underway since 2017. We have previously provided three reports to NJDEP as part of this collaboration.

Please let me know if you have questions.

Thank you.
